

WORK PRODUCTIVITY MODEL DURING FLU SEASON

DID YOU KNOW?...

- Vaccination reduces “present”eeism – contagious employees coming to work and inadvertently spreading the virus because they cannot afford the lost wages associated with missing work.
- According to the CDC, flu vaccines can reduce absenteeism by 18-45% and prevent lost productivity by 18%-28%.
- A study shows that 60% of all workers consider health and wellness programs an incentive to stay at their current job.

HOW THE VAXAMERICA FLU CLINIC SOLUTION BENEFITS YOU:

- Flexible payment options including *direct health plan billing!**
 - Online scheduling allows employees to *reserve their own shots!*
 - Marketing toolkit with flu posters and automated email reminders.
 - Personal clinic planner to help you plan a successful clinic.
 - Guaranteed Channel Integrity™ because safety is always a priority.
- * VaxAmerica has contracts with most major health plans.
